DEDICATION

CAPTION:"The Lord God said, 'It is not good that man should be alone; I will make a help meet for him.'" Genesis II:18

The dedication of this year's Town Report to Richard A. "Wink" Tapply and his wife Ruth is the latest addition to the long list of awards and the many words of appreciation that have been received by this warm and talented couple.

A product of Bristol's schools, Wink was valedictorian of his class of 1928. When Rev. A.B. Thompson initiated his program for youth in 1946 in the Methodist church, Wink was its first director, the obvious choice since he had already shown his leadership qualities with the Boy Scouts and his imaginative programs with the youngsters of his church. Long before outdoor education and conservation were considered an important part of a recreation program, he sponsored activities in both. When the Little Round Recreation Area was dedicated in memory of Bristol's beloved game warden in 1954, Wink became clerk and a director of the Slim Baker Foundation for Outdoor Education, offices he holds to this day. Bristol girls, some now grandmothers, remember performing at the National Recreation and Park Congress in Philadelphia in 1953 and for President Eisenhower in 1954 as members of the Community Center's Rope Skipping Demonstration Troupe.

By 1956 Wink's program was recognized nationally as an outstanding recreation service for small communities, and when in 1957 a private foundation made funds available, he was selected Recreation Consultant for New Hampshire. His workshops in leadership training and conducting leisure-time activities were so successful that the legislature in 1965 established the New Hampshire Office of Community Recreation Service with Wink as Director, a responsibility he fulfilled with Ruth as his secretary until their retirement in 1975.

Among his awards is a citation by the New Hampshire Recreation and Park Society for 25 years of dedicated service to the recreation profession in 1971. In 1973 he received the Gold Seal Award of the NH Federation of Garden Clubs in appreciation of efforts in beautification. This resulted from the program CUBMUP (Cleaning Up Bristol Makes Us Proud), promoted by the Tapplys to improve their town. And concurrent with his retirement in 1975 came his honorary recognition by Springfield College with the degree Doctor of Humanities.

Wink and Ruth have always practiced the outdoor skills they taught. When their sons Charles and Dick were still in school, they spent a summer camping in the West; they continue with annual ski trips to Utah and Colorado, in retirement enjoying life to the fullest. They have recently returned from exploring remote areas of Alaska; these winter days will see them on the slopes of Gunstock, where they can cast proud parental eyes on Dick, the Area's director.

Bristol now recognizes this local boy who with his helpmate made good by serving his state and nation in his chosen profession without forgetting his home town. As CUBMUP served as the conscience of the community, for their leadership, enthusiasm, humor, love of people and concern for their town, we add a new acronym: WARBSY - Wink And Ruth, Bristol Salutes You.

Samuel E. Worthen

In Memory of
RODNEY T. ALLARD

"The happiest people in the world are those who strive to make others happy." Rod quoted that to me almost 40 years ago. He lived that kind of life; he was the epitome of that thought.

He served his community because he was proud of it. He devoted his life knowingly to love, honesty, sincerity and devotion. These four attributes contributed to a strong feeling and dedication to family, whether that was defined as his beloved wife and children, or, in a larger sense, the community he so well served with pride.

The name "Rod Allard" speaks for itself and will for years to come in the annals of the Town of Bristol. It was synonymous with and noted for volunteer work with the Bristol Fire Department, the Newfound Area School Board, the Bristol Planning Board, and as Secretary to Homeland Cemetery. But, above all, it was synonymous with friendship and the counsel he willingly gave to each of us.

I lost a beloved brother-in-law and counsel. The Town of Bristol lost but, will long remember, a beloved son.

Dean L. DesRoches, Ed.D.

In Memory of
H. ARNOLD KIMBALL

Arnold Kimball came to Bristol in 1964 as a businessman from the town of Plaistow, NH. For Arnold, it was a return to the family roots, on both his mother's and father's side. As a youth, he had also come to Bristol to visit and live with relatives, so the community was no stranger to him.

Arnold was foremost a businessman, owning and managing several filling stations in the Bristol Square area. At one time he owned and operated a bus company which found him also serving the needs of the Newfound Area School District.

Public spiritedness was also a strong character trait of Arnold's. He ran for the office of Road Agent and was the first to set the town on the path of owning its own equipment to serve the Town's highway needs. He also saw the transition of the Town voting to abolish the elected position of Road Agent to one of an appointed Highway Supervisor. In this capacity he served until illness required his leaving the position.

Soon after recovery, Arnold ran for and was elected as a member of the Town's Budget Committee, a position which broadened him for the highest gift a town can bestow upon any of its citizens, that of being elected a selectman. This office Arnold served diligently for five years, sharing his experience and expertise with other town leaders. Bristol was always at the forefront of Arnold's thoughts. He only wanted the best for the community and her citizens.

Leaders such as Arnold Kimball are hard to come by. Bristol was truly most fortunate to have acquired his services for the many years he was able to publicly serve.

Charles E. Greenwood

In Memory of
HERB TENNEY

June 6, 1898 - February 16, 1989

Among the losses the Town of Bristol suffered in 1989 was Herb Tenney. Born in Groton, NH, Herb moved to Bristol at an early age, establishing his roots here. A woodworker by trade, Herb worked for the well-established firm called Keezer Brothers until his retirement. He was a member of The Bristol Volunteer Fire Department for more years than one can remember, joining the company September 1920. The Fire Department was then located at the north end of town at what was called Smith's Garage (near the present State Liquor Store) and oddly enough was called the Northend Hose Company. Herb remained a firefighter until 1981. In 1965 Herb was appointed as Bristol Forest Fire Warden, a job he took very seriously. He retired from that position in 1980.

Herb took an active interest in Town affairs and attended meetings on a regular basis. It is dedicated people like Herb Tenney that make Bristol the Community that it is.

TOWN WARRANT
State of New Hampshire

Bristol, NH Grafton, SS

The polls will be open from 10:00 a.m. to 7:00 p.m

To the inhabitants of the Town of Bristol in the County of Grafton, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the Town Office Building, on Lake Street in said Bristol on Tuesday, the 13th day of March, next at 10:00 of the clock in the forenoon, to act upon the following subjects:

Article 1. To choose all necessary Town Officers for the year ensuing.

Article 2. To see what action the Town will take with respect to the Zoning Ordinance prepared by the Town Planning Board by voting by ballot upon the following question:

1. Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town of Bristol Zoning Ordinance as follows:

To amend the Zoning Ordinance by adopting the Flood Plain Zoning Ordinance regulating construction within the floodplain in accordance with Federal Emergency Management Agency requirements.

Yes_____No_____

Article 3. To see what action the Town will take with respect to the following petitions to the Board of Selectmen pertaining to the Zoning Ordinance by voting by ballot upon the following questions:

1. Are you in favor of the adoption of Amendment No. 2 as proposed by petition for the Town of Bristol Zoning Ordinance as follows:

To amend the Zoning Ordinance by adopting a Wetlands Conservation Overlay District. The Wetlands Conservation Overlay District will regulate uses of land subject to standing water, flooding, or high water

tables for extended periods of time as defined in a Wetlands Inventory and Evaluation prepared for the Town of Bristol. (Not recommended by the Planning Board).

Yes_____No_____

2. Are you in favor of the adoption of Amendment No. 3 as proposed by Petition for the Town of Bristol Zoning Ordinance as follows:

To repeal the Pemigewasset Overlay District. (Not recommended by the Planning Board).

Yes _____No_____

3. Are you in favor of the adoption of Amendment No. 4 as proposed by Petition for the Town of Bristol Zoning Ordinance as follows:

To repeal the entire Zoning Ordinance. (Not recommended by the Planning Board).

Yes_____No_____

POLLS CLOSE AT 7:00 P.M.

and further action on the following articles at the Old Town Hall on Summer Street in said Bristol at 7:30 p.m. on Thursday, March 15, 1990:

Article 4. To see if the Town will vote to raise and appropriate the sum of $89,750 for the acquisition of the Robert J. & Muriel I. Beaulieu property located off West Shore Road near the Fowler River for the purpose of a future well site and conservation purposes and authorize Town Officials to accept funds from any Federal, State, including matching funds available under the NH Land Conservation Investment Program , RSA 221-A, or private source. (Recommended by Budget Committee)

Article 5. To see if the Town will vote to raise and appropriate the sum of $5,000.00 for a survery in preparation of a Master Plan for Kelly Park.(Recommended by Budget Committee)

Article 6. To see if the Town will vote to accept the budget as submitted by the Budget Committee and to raise and appropriate the sum of $2,378,016 to be raised by taxation, inclusive of preceding Warrant Articles.

Article 7. To see if the Town will vote to depos-

it fifty percent (50%) of all future revenues collected pursuant to RSA 79-A (the Land Use Change Tax) in the conservation fund administered by the Town Treasurer (RSA 36-A:5 II) and authorized by RSA 79-A:25 II. The specified percentage of such revenues shall be deposited in the Conservation Fund at the time of Collection.(Submitted by Petition.)

Article 8. To see if the Town will vote to discontinue the "Revaluation of the Town" Capital Reserve Fund. (As of December 31, 1989 the account shows a balance of $131.76.)

Article 9. To see if the Town will vote to establish a Highway Department Equipment Capital Reserve Fund and appoint the Selectmen as agents. This fund to be funded by the funds in the current Equipment Capital Reserve Fund established in 1967 without a Warrant Article vote. (As of December 31, 1989, the account shows a balance of $4,192.42.)

Article 10. To see if the Town will vote to authorize the Board of Selectmen to appoint three alternates to the Planning Board in accordance with RSA 673:6.

Article 11. "Shall we adopt the provisions of RSA 72:28, V and VI for an optional veterans' exemption and an expanded qualifying war service for veterans seeking the exemption? The optional veterans' exemption is $100 rather than $50." (Submitted by petition) (Ballot vote required).

Article 12. "Shall we adopt the provisions of RSA 72:35, IV for an optional property tax exemption on residential property for a service-connected total disability? The optional disability exemption is $1,400, rather than $700." (Submitted by petition) (Ballot vote required).

Article 13. "Shall we adopt the provisions of RSA 72:43-f for the adjusted elderly exemptions from property tax? These statutes provide for the following exemptions, based on assessed value, for qualified taxpayers: for a person 65 years of age up to 75 years, $10,000; for a person 75 years of age up to 80 years, $15,000; for a person 80 years of age or older, $20,000. To qualify, the person must have been a New Hampshire resident for at least 5 years; own the real estate individually or jointly, or if the real estate

is owned by his spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of less than $10,000 or if married, a combined net income of less than $12,000, and own net assets of $30,000 or less, excluding the value of the person's residence."(Submitted by Petition) (Ballot vote required).

Article 14. To see how the Town will vote on the following proposed bylaw:

When the Selectmen of Bristol, NH refuse to re-assess valuations of buildings and/or land to a fair market value, then the town shall buy said building's and-or land at the current town valuation. Condition of the amendment: The selling party(ies) must have (2) two licensed appraisals dated within (1) one year of selling date. (Submitted by Petition)

15. To see if the town will vote to require Newfound Ambulance Rescue Squad, Inc. (NARS) to deliver to the Town of Bristol all assets of the Corporation including, but not limited to, all accounts receivable, savings accounts, checking accounts, equipment and other material of whatever nature and vote to dissolve itself by April 1, 1990. Further if all the foregoing is not accomplished by said date, then the action of the 1989 Town Meeting on Article 7 is rescinded.

Article 16. To see if the Town will vote to establish, in accordance with RSA Chapter 35, the Ambulance Department Capital Reserve Fund for the purpose of acquiring equipment for the Ambulance Department and to appoint the Board of Selectmen as agents to carry out the objects of this fund, in accordance with RSA 35:15. (This vote contingent upon compliance with Article No. 15)

Article 17. To see if the Town will vote to authorize the Board of Selectmen to establish fees for the issuance of licenses and permits and to defray the expenses of all established regulatory programs as provided in RSA 41:9-a.

Article 18. To see if the Town will vote to authorize the Selectmen to apply for, accept, and expend federal or state grants which may become available during the course of the year, and also to accept and expend money from any other governmental or private source to be used for the purposes for which the Town may legally appropriate money: provided (1) that such grants and other monies do not require the expenditure of any other Town funds, (2) that a public hearing shall be held by the Selectmen prior to the receipt and

expenditure of such grants and monies and , (3) that such items shall be exempt from all provisions of RSA 32 relative to limitation and expenditure of Town monies, all as provided in RSA 31:95-B(SUPP.)

Article 19. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

Article 20. To see if the Town will vote to designate and proclaim April 22, 1990 as Earth Day - 1990 and to set aside that day for public activities promoting preservation of a global event thus launching the decade of the environment. (Submitted by petition).

Article 21. To transact any other business which may legally come before this meeting.

Given under our hands and seal, this 15th day of February, in the year of our Lord nineteen hundred and ninety.

SELECTMEN'S REPORT

As always, 1989 was full of challenges and accomplishments; for us, though, the hallmark seemed to be change.

Edward "Ned" Gordon, resigned in April because of career and personal commitments. Ned gave four years of himself to Bristol. Anyone who knows him realizes that he spent few waking moments without some thought towards Bristol's direction. With his leaving the Town saw the departure of a dedicated servant.

After much time spent in deliberation and thought, your Selectmen appointed Archie Auger to take Ned's place. Archie brings with him years of public service. Archie is a thoughtful, forward-thinking individual who, with past experience on the Board of Selectmen, made the transition a smooth and enjoyable one.

Our Town Administrator's position also was the subject of change this year as Anthony "Tony" Plante made a career move to work as Financial Director of Bedford, NH. Tony was a hard-working employee who always worked with Bristol's best interest in mind. With his resignation came yet another search for a replacement. Virginia "Gini" Deragon was chosen from 40 applicants and brings with her many years experience in this position. She is a delight to work with and like Tony is very dedicated to the Town she works for. Gini is very hard-working and looks forward to meeting all of you.

The Concord incinerator was operational as of August. After a month of "shakedown", it went into full operation. From all accounts it is a well-run facility and will take us into the 21st Century as a positive alternative to land fills.

Another change in the refuse department was the switch from Lakes Region Disposal to Newfound Rubbish. The Selectmen contemplated three bids for rubbish removal and chose Newfound Rubbish to handle the Town's needs. After much discussion we have budgeted to own our own compactor and containers (the equipment presently at the transfer station). This, in combination with our contract with Newfound Rubbish, will see savings of over $100,000. over the next three years.

The Town Building expansion was completed this fall about two months ahead of schedule. There have been many comments on the addition and its construction through the year. Now that all is said and done, your Selectmen feel that the Town now has a new facility that will accommodate and serve us well for years to come. With the expansion came the new computer system which is on-line. Although not as personable as the old computer, "Bob", the staff is gaining confidence in its operation and has already extensively integrated it into many workings of the Town. Also, with the new addition came a meeting room which has seen much use since completion. On March 13th of this year, voting will take place in this new handicapped-access meeting room. Your Selectmen are sure you'll agree that this will be a positive step in the right direction considering the savings from not heating and lighting the Old Town Hall for Election Day.

Yet another change is that of Newfound Area Rescue Service to Bristol Emergency Medical Service effective January 1, 1990. The will of the people at last Town Meeting was to assume responsiblity of the ambulance and to that end your Selectmena have been working.

1989 also saw a slowing in growth as evidenced by a drastic reduction in building permits issued. With this breather it was an excellent time for the adoption of site plan review. With an eye toward the future this regulation will more effectively address the impact of high intensity commercial, industrial and multi-family residential uses.

As you will recall, you reaffirmed your vote of 1988 to fund a $940,000. up-grade of the sewer plant. The engineering is now nearly complete with bids due to be sought in the spring. As a result of the impending construction and elimination of much infiltration the moratorium has been lifted. This time next year should see the expanded plant in full operation.

In closing, your Board of Selectmen wish to thank all Town employees, members of commissions, committees, boards and all others who have given so much of their time to make 1989 a successful year. We appreciate and will always strive to earn the continual support, understanding and confidence of all the people of Bristol.

Sincerely,

J.P. Morrison, Jr., Chairperson
William R. Phinney
Archie L. Auger

INDEPENDENT AUDITOR'S REPORT

To the Members of
the Board of Selectmen
Town of Bristol
Bristol, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Bristol and the combining and individual fund financial statements of the Town of Bristol as of and for the year ended December 31, 1988, as listed in the table of contents. These financial statements are the responsibility of the Town of Bristol's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1C, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Asset Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Bristol at December 31, 1988, and the results of its operations and the changes in financial position of its proprietary and nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly, in all material respects, the financial position of each of the individual funds of the Town of Bristol at December 31, 1988, and the results of operations of such funds and the changes in financial position of individual proprietary and nonexpendable trust funds for the year then ended, in conformity with generally accepted accounting principles.

Carri Blodgett Sanderson

BRISTOL SEWER COMMISSION ANNUAL REPORT

The Commission is finally making progress in the sewer plant upgrade to 500,000 gallons per day. The design is nearly complete and it is estimated that bids will be requested by March of 1990.

Several sections of the main line piping were surveyed by closed circuit TV. Some infiltration into the system was found and was eliminated.

The Commission had several discussions with the major contributor i.e., Freudenberg-NOK relative to sewage concerns. All were resolved to the satisfaction of the town.

Illegal hookups have been a problem this year. To the best of our knowledge all are resolved.

This commission becomes more complex and difficult as time passes. Our engineers are becoming more involved in our routine operations.

John Bianchi, Chairman
Walter Corbeil
Everett Hackett
Bristol Sewer Commissioners

SUMMARY OF PAYMENTS

1. General Government

a.	Town Officers' Salaries	40,655.42

Report of Trustees of Minot Sleeper Library

The Trustees of the Minot Sleeper Library report the following activities during the year 1989:

The Summer Reading Program and Story Hour were very successful. It is planned to divide the children into two age groups next summer and more volunteers will be needed to accomplish this.

During the summer, library patrons participated in a survey to collect information on the types of video tapes to purchase. The most popular choices since July have been science, history and hobbies. The librarian has reported that the new VCR tape program is very popular. A storage cabinet for video tapes has been purchased.

All library trustees have become members of New Hampshire Library Trustees Association.

The Minot Sleeper Library now offers 36 different magazines. A new set of Americana Encyclopedias was purchased and a set of 1983 Encyclopedia Britannica was donated to the library. The transfer of all available editions of the Bristol Enterprise to microfilm has been nearly completed. A report on the circulation of books includes:

Video Tape	307	Adult Fiction	5,217
Adult Non-fiction	1,850	Adult paperbacks	823
Junior Fiction	2,956	Junior Paperbacks	247
Junior Non-fiction	1,097	Borrowed from other libraries	14
Inter-Library Loan			299

Outstanding reports were 42 video tapes loaned in one month and 202 books loaned in one day. Book losses (non-returned) have collectively been 74 over a period of time. At least 30 new books are added each month.

The Bristol Fire Commission inspected the library and noted several safety factors in need of correction. These repairs were completed by the Maintenance Committee. A report from the Maintenance Committee advised the Trustees that after continuous furnace repairs this past year, it would be more cost effective to have a new furnace installed. Bids were sent out and a new furnace has been installed and is heating comfortably.

A long list of repairs and improvements have been accomplished this year. Ceiling fans were installed to circulate air and heat; four beanbag chairs were purchased for a relaxing atmosphere in the childrens' area; backyard clean up was done, and the Bristol

Garden Club planted flowers to beautify the outside of the Library. A library patron donated and planted a lilac bush. Frozen water pipes caused damage to the ceiling and it has been repaired. The roof supports and porch light were repaired and additional electrical work was completed. A screen door has been installed on the downstairs childrens' room and the top of the large table there has been sanded and treated. A step stool was purchased for downstairs and several kick-stools were purchased for the upstairs to provide easier access to the upper shelves. The Librarian has a new typewriter table and a desk chair is on back order.

Library hours are now: Monday & Wednesday 1-8 pm; Friday 3-8 pm; Saturday 9-12 a.m.; a total of 22 hours per week.

Florence G. LaClair
Chair, Board of Trustees

NEWFOUND AMBULANCE RESCUE

Newfound Ambulance Rescue experienced another busy year in 1989 with a slight drop in call activity in providing service to Bristol and the surrounding Newfound Area, including the Towns of Alexandria, Bridgewater, Bristol, Danbury, Hebron, and New Hampton.

There were a total of 443 calls during 1989, a decrease of 13 from the previous year. This is the second year in succession with more than 400 calls in a year. For the Town of Bristol there were 186 calls, the same as the year before. A breakdown of the number of calls per town is:

Alexandria	37	Danbury	28
Bridgewater	37	Hebron	22
Bristol	186	New Hampton	102

As was planned, during the past year we replaced the 1981 model ambulance that had served well over eight plus years with a new 1989 ambulance of similar design. This new unit has a diesel engine in line with an industry-wide switch from gasoline to diesel fuel for ambulances. The funds needed to purchase the new $40,000. plus unit came from monies earned by the service and we are pleased to say required no extra appropriations from any of the Towns.

Equipment for the new unit was for the most part transferred from the 1981 unit that was traded. During 1990 we plan to add another defibrillator/monitor so both ambulances will be so equipped.

The year past as well as the year ahead are somewhat of a transitional period as the service makes a change from a multi-jurisdictional municipal service to a municipal service operated by Bristol and serving the same area Towns. This change was approved at last year's Town Meetings as a step to continue the minimal cost to the Towns, especially in the area of dispatch, insurance, and future staffing.

A very important change, EFFECTIVE THURSDAY, March 1, 1990, is the PHONE NUMBER to call for EMERGENCY SERVICES. As noted on the back page of this Annual Report, the number is 524-1545 (Lakes Region Mutual Fire Dispatch Center in Laconia) to request an ambulance for any type of emergency.
For other routine ambulance business, call our office at 744-2848; we are located at the Town Offices at 71 Lake Street.

Bristol Conservation Commission

The welands mapping study for the Town of Bristol arrived in January. The professionally prepared Wetlands map wen on display in the Selectmen's Office in March. A public hearing was held in May, at which time a presentation was made by Barry Keith, who completed the study. Fifty-six (56) wetlands were defined in the 795 acres studied. Three of these wetlands are considered significant: 47.9 acres in the Pemigewasset Wetlands complex, 18.3 acres in the Smith River Road Wetlands complex, and 151.6 acres in the Wellington State Park Wetlands complex. These three natural resource wetlands are viewed by the Commission as critical in preservation efforts. The Wetlands map and inventory will be used to assist the town as a developmental planning tool.

We continued communication with Ray Lobdell who was hired to assist the architects at the site of Newfound Regional High School with regard to soils, erosion and sediment control. Suggestions for long term maintenance of the erosion control and drainage practices to minimize future problems were completed. Environmental issues raised by the Conservation Commission were addressed.

The Commission continues to monitor developments in the Fowler Rivwer area. A great deal of activ9ity has gone on in this important wetlands complex in the last few years. In mid-June, members of the conservaiton Commission testified in Concord before the Governor and Council against the request of an applicant for boat docks on the Fowler River. Our objection to the request was based on the prevention of cumulatiuve impacts on the Fowler River. The Governor and council voted to deny the boat docks, supporting the Conservation Commission.

The spring on Route 3A is tested regularly for water quality. Sampling is done by the members of the Commission. The water tests are conducted on the samples in Concord with the results forwarded to the Commission. On two occasions this year, the spring was closed temporarily until the conditions affecting the water quality could be addressed.

As a followup to the Wetlands Map and Inventotry, an amendment to the Bristol Zoning Ordinance for a Wetlands Conservaton Overlay District was drawn up. This amendment, if passed, would regulate uses of lands subject to standing water, flooding, or high water tables for extended periods of time, in the 8interest of public health, safety and general welfare .

Activities of the Conservation Commission are becoming more sophisticated as we face the march of progress which awaits us in this next decade. The Conservation Commission remains committed to its legal purpose under RSA 36-a which is to preserve open space for aestrhetic reasons, to protect the water supply, top protect wet areas from development that would reduce their value for flood control, and to preserve wildlife habitats and unique ecological areas. Regulations proposed by this Commission and specialists employed by this commission are aimed at helping us preserve enough open space so that future generations will be able to enjoy the qualities which have given Bristol the reputation of an attractive recreation area.

Respectfully Submitted,

Mason Westfall, Chairperson	John Hetzel
Barbara DeAngelis	Harriet Newell
Maynard Dow	Samuel Worthen

BRISTOL WATER WORKS ANNUAL REPORT

The Bristol Water Works rules and regulations have been brought up to date and will be issued early 1990. This has been a year in progress.

A new flowmeter has been installed at the Fowler River Pump Station. This monitor is essential in determining the tightness of the entire piping system.

The water rates were adjusted on April 1, 1989, and as a result, a balanced budget resulted. There is no adjustment anticipated for 1990.

Several main line breaks during the year will have to be considered for replacement in the very near future.

The Wulamet Road Water Mains project was placed on hold because the town could not obtain easements where required. The Water Department is ready to build as soon as the restrictions are lifted.

We retained the consulting engineering firm of Dufresne-Henry to represent the Bristol Water Works in all engineering concerns.

Several customers complained about excessive water consumption this year. Independent calibration of the meters showed that the meters were recording correctly in all cases.

We added a new part time office employee this year. Welcome to Theressa Butler. Even though a new computer system is being installed this part time position will still be required.

We have adopted a report by Dufresne-Henry titled "Guidelines for Developers" dated May 31, 1989. This was done on July 11, 1989. A final review of any project will be made by D-H for the BWW at the developer's expense.

This commission is actively pursuing the acquisition of the Beaulieu property on West Shore Road adjacent to the Fowler River. This will provide a second, or more, well site for future needs. A test well was driven and it appears we have a well equal to the present one. This site will also provide protection for the present well installation.

The responsibilities of the commission become more complicated as time progresses.

John Bianchi, Chairman
Gordon S. Dole
Burton W. Williams
Bristol Water Works Commissioners

BRISTOL FIRE DEPARTMENT

This past year has been a busy one for the Fire Department as we responded to 90 calls. The Commissioners have continued to inspect the schools, apartments, stores, garages and restaurants. A lot of time was also spent on the new High School and the renovations to the Middle School and Town Offices.

We had seven firefighters take the Firefighter 1 course and several have taken the SCBA course and the Cold Water Rescue course. In the coming year, more will be taking these training courses.

At last year's Town Meeting, it was voted to purchase a 2500 gallon tanker with a 1250 pump. This has been done and the new truck will be in service at Town Meeting, or before.

In June the Fire Department dedicated the Fire Station to former Chief Kenneth P. Brown. It was through his work and dedication that we have our present building. The Department was also saddened this year by the deaths of Honorary Members Herbert Tenney and Rodney Allard.

The Fire Company again put up and took down the Christmas lights. This was done under the direction of Robert Fellows. He and several of the firefighters ran new wires in the square and also added a few new lights. More lights will be added next year.

The Fire Company started a Cadet program this year. There are eight cadets under the leadership of Lee Von Duyke and Richard Constant, with help from Frank Avellino and Robert Homer. In January 1990, four of the Cadets received their badges and certificates upon completion of an exam drawn up by the advisors. These Cadets are a tremendous help to all the firefighters. They fill and clean the Scotts, set up and start the generators for lights, get equipment that is needed during a fire and help with the hose after the fire. These boys are really interested in fighting fires and are very dedicated. Our thanks to each and every one of them for a job well done. These young men will be the future firefighters in this or some other town.

Bristol Fire Commissioners:

Ernest H. Glines
Raymond A. Greenwood
Stephen Q. Curley

BRISTOL PLANNING BOARD

The Bristol Planning Board meets regularly during the month. On the fourth Wednesday of each month we listen to applicants and abutters' requests pertaining to subdivisions. Due to the work load this past year, the Bristol Planning Board has been meeting on the second Wednesday of the month as well. Starting in January 1990, the Planning Board will go back to one meeting a month (fourth Wednesday).

There have been many requests for subdivisions this year, and a great many hearings for the abutters pertaining to each request. Along with the Subdivision Regulations, the Planning Board has spent many hours in developing the Site Plan Review that was authorized by Town Meeting on March 14, 1989.

The Planning Board has reviewed changes to the Zoning Ordinance as presented by the Zoning Board and the Conservation Commission. The changes presented help clarify and help to protect the present and future land owners of our community.

There have been many people who have helped to make our Subdivision Regulations work. I would like to thank those abutters and concerned citizens who come to our meetings to help us in our decisions. The Planning Board lost three members this year that we would like to thank publicly: James Nyberg, Barbara Shokal and Bob Curdie have served on the Board for many years and have been instrumental in helping to revise, create and to enforce our town regulations.

Tom Belser, Chairperson

ZONING BOARD OF ADJUSTMENT
1989 YEAR END REPORT

The activity of hearings for the past year has been light. There have been only eight (8) hearings from January to December of 1989. The hearings for this period were of the following:

(5) Special Exceptions
- (3) Granted
- (2) Denied

(3) Variances Granted

In March of 1989 I was elected by the Board to the chairman's position, after the resignation of Theresa Simkevich. I immediately established a set of objectives for the Board. One was to review the by-laws of the board and revise articles where needed. Another objective was to bring the Board up to a full staff of five (5) members and three (3) alternates. This, with the help of the Selectmen, has been accomplished as well as the revision of the by-laws.

In the latter part of the year the Board started reviewing the Zoning Ordinance with the intent of focusing on ordinances that the Board had difficulty litigating in the past. The intent is to make recommendations to the Planning Board for clarification, or possible revision, changing or deleting parts of an ordinance.

The members of the Zoning Board of Adjustment include:

William Cosgrove
Kenneth Grack, Chairperson
Orvis Hopkins
J.P. Morrison, Jr.
Dr. Raymond Winter

The Zoning Board will continue our efforts to preserve the spirit of the Zoning Ordinances.

Kenneth Grack, Chairperson

POLICE DEPARTMENT REPORT

Below is a list of statistics of several areas handled by the Bristol Police Department in 1989.

Police Department 1989 Statistics

COMPLAINTS:

Arson	1
Assaults	41
Robbery	0
Burglaries	60
Thefts	91
Motor Vehicle Thefts	7
Fraud-Bad Checks Reported	26
Criminal Mischief (Vandalism)	139
Total Warnings Issued Adults	4810
Total Warnings Issued Juveniles	231
Juvenile Arrests	43
Criminal Arrests & Summons	212
Motor Vehicle Arrests & Summons	612
Stolen Property Within Bristol	$61,685.00
Recovered Stolen Property From Bristol	$19,600.00
Reccvered Stolen Property From Other Towns	$27,000.00

TRAFFIC:

Total Accidents	189
Fatal Accidents	1
Reportable Accidents to State of NH	139
Parking Violations - Tags Issued	79
Defective Equipment - Tags Issued	133

SECURITY:

Burglary Alarms Answered	157
Open Business Doors	55
Total Miles Driven	85,751
Total Gas Consumption (Gallons)	7,160.6

BUILDING INSPECTOR'S REPORT

The year 1989 saw a continuation of the downward trend in building permit activity that started the year before. A total of 98 permits were issued in 1989, down from the 140 in 1988. Fee income collected was $1,715.00.

A breakdown by type of permit follows:

21	New single family residences
0	New multi-family buildings
4	New garages (free standing) 9 stalls
0	New condominiums
20	Additions to existing structures
40	Renovations
6	Storage/shed type buildings
7	Misc. permits (signs, commercial)
98	

During the year there were two cases of persons in violation of building location/set-back distance requirements that came to our attention. In both cases this necessitated nearly completed buildings being moved in order to comply with Zoning Ordinance Regulations. At best this is inconvenient, time consuming and, of course, can be costly. In both cases the Building Inspector appreciated the cooperation of parties involved in remedying the situations.

New in 1989 was the added requirement for sign permits. Before planning sign work of any kind, please check the regulations under Article IV Section 4.11 of the Zoning Ordinance to determine if what you propose is allowed and then if appropriate, apply for a permit in advance of any work.

Building Permits are required for all new construction, additions to existing structures, renovations that upgrade or change the use of space, siting of a mobile home, and in general any construction work estimated to exceed $500.00 in fair market value for labor and materials.

Additional information and assistance is available by contacting the Building Inspector at the Town Offices.

TOWN MEETING 03-14-89

Supervisors: Jane Westfall, Ruth Simpson, Raymah Belser
Ballot Clerks: Jacqueline Crouse, Elaine Putnam, Marcia Payne & Zelma Tucker (Temporary)
Moderator: Samuel E. Worthen
Town Clerk: Barbara L. Avery
Police: Chief Barry Wingate
Selectmen: William Phinney, Edward Gordon, J. P. Morrison Jr.

Ballot boxes inspected and found to be empty.
Polls declared open at 10:00 am and closed at 7:00 pm.

March 16, 1989

Meeting declared open at 7:30 pm by Samuel E. Worthen, Moderator.
Invocation given by Rev. John Buttrick of the Bristol Federated Church.
The Junior Girl Scout Troop 92 led us in the pledge of Allegiance to the Flag.

7:40 PM Article 1 To Choose all necessary Town Officers for the year ensuing. The results of the voting on Tuesday is as follows: Selectman for 3 yrs., William Phinney, 424 and Frank Kierce, 67; Treasurer for 1 yr. Patricia Woolsey, 454; Budget Committee for 3 yrs. Thomas P. Caldwell, 377 - Melva B. Day, 330 - Everett Hackett, 311 - Thomas Keegan, 355 - Jeffrey D. Barr, 248 - Richard Walenda, 99; Fire Commissioner for 3 yrs. Ernest Glines 470; Sewer Commissioner for 3 yrs. Everett Hackett, 230 - Michael P. Capsalis, 178 - Richard Walenda, 48 - Frank Kierce, 27; Trustee of Trust Funds for 3 yrs W. Mark Cramton, 466; Police Commissioner for 3 yrs William Simpson, 206, - Thomas J. Belser, 129 - Lee Caldwell, 56 - Elsie J. Day, 48 - Richard Walenda, 43; Library Trustees for 3 yrs. Charles E. Greenwood, 447- with Maxwell MacPherson with 7 and Richard Walenda with 3 the next two in line among the many write-ins; Supervisor of Check List for 4 yrs. Raymah Belser 458.

Article 2 To vote upon amendments to the Bristol Zoning Ordinance as proposed by the Planning Board. The results of the voting on the amendments to the Zoning Ordinance is as follows: 1 - Yes, 210 - No, 206; 2 - Yes, 290 - No, 129; 3 - Yes, 259 - No, 155; 4 - Yes, 103 - No, 370: 5 - Yes, 213 - No, 214; 6 - Yes, 282 - No, 141; 7 - Yes, 335 - No, 110.

7:44 PM Article 3 To see if the Town will vote to authorize the modification and rehabilitation of the wastewater treatment plant and to raise and appropriate the sum of two million thirty thousand dollars ($2,030,000.00) for the work, which is to be done under the supervision of the Sewer Commission. Funds to be raised by borrowing on the credit of the Town through the issuance of notes or bonds, under the provisions of the Municipal Finance Act (RSA 33 (Supp.)), said notes or bonds to be signed by the Selectmen, countersigned by the Treasurer, and sealed with the Town seal, and delegate to the Selectmen the discretion of fixing the date, maturities, denomination, interest or discount rate, the place of payment, the form and the other details of said notes or bonds and provide the sale thereof, and also to authorize the Selectmen to expend any interest earned from the investment of bond proceeds. All notes or bonds issued hereunder shall be general obligations of the Town. In no event shall the amount to be raised through the issuance of said notes or bonds be greater than the amount appropriated hereunder less the amount of any grants or gifts received by the Town for said work. Recommended by the Budget Committee.

Moved by Edward Gordon and Second by John Bianchi. Ned spoke for the article. He stated that the money that was voted last year was not spent because IPC diverted some of their process water out of the system, thus allowing the moratorium to be partially lifted and some people to hook on.

Then as a result of the study that we did we discovered the best and cheapest solution in the long run was to expand the current plant to a capacity of 500,000 gallons a day. It also appears that we will probably not be able to get the 20 % from the state. We have applied for a $750,000.00 grant but still no guarantee that we would receive this either. We feel it is better to do this project and have a plant that would go 10 or 20 years before we would reach capacity again rather then the band-ade approach that we went for last year. In financing this-the first year 60% would come from general taxation and 40% from sewer users. This would go down 10% for six years so that by the seventh year the sewer users would be paying for the whole bond payment. John MacEachen gave the presentation of the project. It is broken down into two major areas - Mechanical plant equipment and Engineering services. Under mechanical plant equipment is (1) Head works building, which would receive the waste first and take out any floating material such as plastic , cans, and also the sand. (2) two clarifiers- settling tanks to finally treat the waste before it goes into the river. (3) building up-grade of the present building (4) Disinfection, this would be done with ultra-violet light. (5) site work. (6) Upgrade the Central Street pump station (7) Sludge thickening tank. Engineering and project administration: (1) construction administration (2) Resident engineer (4) contingent fund - to help take up any increase that might happen between now and when project is done.

Richard Walenda - asked why we need all this when IPC stopped putting in all that water into the system. He was told that there were still a lot more that wanted to tie in and even this difference did not allow this.

Frank Kierce - How long would job take? Was told they would sign the contract with engineers immediately after the meeting if this is approved. Then from April to September, 1989 would be designing the project. Would go out to bid from September, 1989 to January, 1990. In January 1990 the bids would be opened with construction to start in April and completed in April of 1991.

Pat Lovejoy asked if the current mains would handle the flow that would be generated and was told that the engineers said they would.

Steve Curley questioned just how much would be paid out of taxation and Ned said a little more then 10% or about $430,000.00. Ned stated that the engineers projected a much higher cost and we (the sewer commissioners and the selectmen) beat them back by quite a bit.

Tom Morrison asked if we might get some help from the state or the federal government if we put it off for a year or two. He was told that it dosn't look like there would be anything from the federal government and also very doubtful from the state.

John Morrison moved the question. Second by Gordon Dole. Motion defeated by voice vote.

Chandler Brown spoke in favor of going to Franklin.

Mason Westfall pointed out that when you have your septic tanks pumped out then they could be dumped here rather then having it trucked out of town.

John stated that the life expectancy would be twenty years.

The moderator stated this must be a ballot vote with a 2/3 majority to carry and that the polls would be open for one hour. Balloting started at 8:45 PM. Total vote 201 - Needed to pass 134 - Yes, 96 No, 105. Article defeated.

9:05 PM Article 4 To see if the Town will vote to authorize the purchase of a municipal computer system, and to raise and appropriate the sum of fifty thousand dollars ($50,000.00) for the purchase, which is to be done under the supervision of the Board of Selectmen. Funds to be raised by borrowing on the credit of the Town through the issuance of notes or bonds, under the provisions of the Municipal Finance Act (RSA 33(Supp.)), said notes or bonds to be signed by the Selectmen, countersigned by the Treasurer, and sealed with the Town seal, and delegate to the Selectmen the discretion of fixing the date, maturities, denomination, interest or discount rate, the place of payment, the form and

other details of said notes or bonds and provide the sale thereof, and also to authorize the Selectmen to expend any interest earned from the investment of bond proceeds. All notes or bonds issued hereunder shall be general obligations of the Town. In no event shall the amount to be raised through the issuance of said notes or bonds be greater than the amount appropriated hereunder less the amount of any grants or gifts received by the Town for said purchase. Budget Committee recommeds $36,000.00.

Moved by Anthony Plante and Second by Gordon Dole. Tony spoke for article stating the current computor does not do very much to meet our needs. The Town would be paying $36,000.00 and the water and sewer departments would pay $14,000.00.

Amendment #1 I move that Article 4 be amended to appropriate $50,000 for the computer system, with $36,000 to be raised through general taxation in 1989 and $14,000 to come from water and sewer department revenues. In the event that the water and sewer commissioners decide to purchase their own computer system, the municipal computer system would be limited to a $36,000 expenditure.

Moved by Tom Caldwell and Second by Elizabeth Seeler. Tom felt it was better to pay for all of it this year then to bond it because of the large amounts in payments we have coming up in the next few years.

Calvin Huckins spoke in favor of a capital reserve fund that would be drawing some interest and would help on the purchases when we do have to make them.

Tom responded that the budget committee has been working on a Capital improvement project where we can do a better job of budgeting and purchasing capital improvements.

Burt Williams spoke in favor of bonding and having the 2/3 vote to carry.

Walter Corbeil asked if the water and sewer department were to get their own system would this jeopize the town getting theirs. Tony responded that it might because we would prefer to get a system that would tie in all the financial aspects of the Town and if not brought together the soft ware might not talk to each other. We would all work together to get a system that would meet the need of all the departments.

Amendment #1 - voice vote too close to call. Show of hands called for:
Yes, 90 - No, 69. Amendment passed.

Article #4 as amended:

Lee VonDuyke asked if the new computor would elminate any personnel and was told no but it might eliminate the possibility of having more.

Eric Rottenecker asked how much it would cost to train the personnel and was told that that would have to be part of the package.

Calvin Huckins spokein favor of it if it would help the staff do a better job.

Tom Belser moved the question and Burt Williams Seconded.

Passed by voice vote.

Show of hands on Article #4 as amended. Passed by a clear majority.

9:48 PM Article 5 To see if the Town will vote to authorize the purchase of an all-wheel drive dump truck, and to raise and appropriate the sum of forty-seven thousand six hundred dollars ($47,600.00) for the purchase, which is to be done under the supervision of the Board of Selectmen. Funds to be raised by borrowing on the credit of the Town through the issuance of notes or bonds, under the provisions of the Municipal Finance Act (RSA33(Supp.)), said notes or bonds to be signed by the Selectmen, countersigned by the Treasurer, and sealed with the Town seal, and delegate to the Selectmen the discretion of fixing the date, maturities, denomination, interest or discount rate, the place of payment, the form and other details of said notes or bonds and provide the sale thereof, and also to authorize the Selectmen to expend any interest earned from the investment of bond proceeds. All notes or bonds issued hereunder shall be general obligations of the Town. In no event shall the amount to be raised through the issuance of said notes or bonds be greater than the amount appropriated hereunder

less the amount of any grants or gifts received by the Town for said purchase. Recommended by the Budget committee.

Moved by Anthony Plante and Second by William Phinney. This vehicle is recommended by Harold Haney, Road Agent. This would be an all wheel drive and diesel. This would replace the F750 which requires a lot of repairs.

Tom Morrison said he was not in favor of this as this could only be used in the winter.

Mike Capsalis feels that this is the one thing that the Town definitely needs.

Amendment #1 I move to amend article 5 to raise the money in the current tax year rather than borrowing it. Moved by Tom Caldwell and Second by Calvin Huckins.

Burt Williams again stated he perferred the bond issue and the 2/3 vote requirement.

Dick Gavalis asked how much it would save to do it in one year and Tom stated about $20,000.00.

Ned Gordon stated the Selectmen felt it was better to bond because the town can borrow so much cheaper and would cost an individual more to borrow to pay his taxes. To bond the truck would be 7Cents per thousand on the Tax Rate.

Amendment #1 - defeated by voice vote.

Article #5 - 188 voted cast. Needed to pass 124. Yes, 110 - No, 78. article defeated.

10:17 PM Article 6 To see if the Town will vote to authorize the Selectmen to enter into a five (5) year lease purchase agreement for the acquisition of a fire truck at a principal cost of not more than one hundred sixty-eight thousand dollars, ($168,000.00). Payments shall be made in equal monthly installmenta of principal and interest in an amount sufficient to amortize the total price in five (5) years. Each purchase agreement shall contain a provision to allow the Town to cancel on any anniversary date when the Town fails to appropriate the necessary funds for the ensuing year, or equivalent language. Further, to raise and appropriate the sum of thrity-three thousand six hundred dollars ($33,600.00) for this purpose. Recommended by the Budget Committee.

Moved by Stephen Curley and Second by John Bianchi. This would be a 25,000 gallon capacity pumper. The larger pumper is needed because of the growth in the outlying areas of the town.

John Morrison asked what truck they would get rid of and was told that they would retire the 1941 GMC, so there would be room in the station for the new vehicle. 1980 was the last time that they bought a new truck. Article 6 passed with a resounding voice vote.

10:25 PM Article 7 To see if the Town will vote to create an Emergency Medical Service Department for the provision of ambulance, rescue and emergency medical services, and to accept ownership interest in any and all property or equipment of Newfound Ambulance Rescue Squad, Inc. Further, to vest the direction and control of said department in the Board of Selectmen and to authorize the Selectmen to take any action required in the establishment of said Department. Further to see if the Town will vote to raise and appropriate the sum of fifteen thousand dollars ($15,000.00) for the purpose of purchasing and installing equipment for the benefit of EMS and Fire dispatch services. Recommended by the Budget Committee.

Moved by William Phinney and Second by Glenn Sharp. Bill explained that per town meeting last year we tried to meet the other area towns to see if they would be in favor of working as an association. Not much interest from the other towns, so we decided it would be better for Bristol to take over the ambulance service. It would be much more expensive if a private ambulance service were to come in. Now would be sun under the Town as a self-supporting unit and would not cost the town any more then it has before.

The other towns would sign a long term agreement with Bristol to pay their share for the service the same as now. Two towns have already voted in favor of this.

Melva Day asked aboutdispatch. Bill told her that Lakes Region was willing to do this and the $15,000.00 in the article is to upgrade the radios and put up a tower so that they can do it.

Richard Walenda asked why Bristol Residents had to pay.

Glen Shrap said that the fees charged are much less then a private one would charge and that these fees are used to train the personnel and replace equipment.

Walter Corbeil asked how old the ambulances were, when would they be replaced and would Bristol taxpayers have to buy these new ambulances.

Roger Pedersen said that one is a 1981, which will be replaced in May with a brand new 1989 and the other one is 1986. The service as run now has a depreciation fund so that when new equipment is needed all or most of the funds are available without resorting to any further tax dollars. Roger said he hopes this year to get about $40,000 in fees which should cover the cost of running the service along with what the towns will be putting in which is about $22,000.00. This covers the $62,000 estimated as the cost of running the service this year.

Article #7 passed by voice vote.

10:30 PM Article #8 To see if the Town will vote to authorize the Selectmen to hire a Planner and to determine his salary, and to raise and appropriate the sum of fifteen thousand dollars ($15,000.00) for same. Recommended by the Budget Committee.

Moved Edward Gordon and Second Anthony Plante. The Selectmen have proposed that we obtain the services of a full time planner whose salary would be $20,000 to $25,000 a year. He would work with the planning and zoning boards and co-ordinate with all the other departments that might be involved in getting the necessary permits to do what they want. He would up-date the tax map. He would up-date the planning and zoning laws. He would issue the building permits. He would up-date the property cards. He would help the town plan for future growth.

Richard Walenda felt we did not need this.

Roger Pedersen supports the idea but felt maybe we should wait a year, mainly because of the space in the current building not available and the expansion that will be taking place this summer will really disrupt everything at the town hall.

Glen Sharp spoke in favor saying it would give the planner a chance to get a good hold of the situation before another building boom hits us.

John Morrison spoke against and Mason Westfall spoke in favor.

Burt Williams moved the question and John Morrison second. Passed by voice vote. Voice vote too close to call - show of hands called for: Yes, 64 - No, 67. A request for a ballot vote by more then seven people. The results of this was: yes, 57 - No, 76.

11:14 PM Article 9 To see if the Town will vote to raise and appropriate the sum of three hundred dollars ($300.00) as a contribution to Lakes Region Community Services. Not recommended by the Budget Committee.

Moved by Anthony Plante and Second by Gordon Dole.

A representative came to the Selectmen with this request and it involves maybe two people from town at this time.. Was not recommended by either the Selectmen or the Budget Committee but we agreed to bring it before the voters for your approval or disapproval.

Defeated by voice vote.

11:17 PM Article 10 To see if the Town will vote to accept the budget as submitted by the Budget Committee and to raise and appropriate the sum of $4,082,849.00 to be raised by taxation, inclusive of preceding warrant articles.

I move the Town vote to accept the budget as submitted by the Budget Committee and raise and appropriate the sum of $1,990,249.00 to be raised by taxation as amended. Moved by Elizabeth Seeler and Second by Tom Caldwell.
No further discussion and article 10 passed by voice vote.

11:22 PM Burt Williams made the motion to adjourn to 7:30 PM Friday night. So approved.

March 17, 1989

7:35 PM Meeting called to order.

7:36 PM Article 11 To see if the Town will vote to reaffirm its decision at town meeting in March, 1988 to authorize sewer plant improvements and raising $940,000 for the project through issuance of notes or bonds.

Moved by Edward Gordon and Second by William Phinney. This is a continuation of the article voted last year. We held off spending this money last year as the crisis situation was released somewhat. Now as you did not vote the major project we feel we need to use this money this year to upgrade the plant so we will have the capacity to go for five to seven years before another major up-grade might have to be done.

John MacEachen said that this would give us one clarifier instead of the two. It would up-grade the present building and also up-grade the pumps. It would up-grade the Central Street Station and we would go with the ultra-violet light for disenfecting the waste. Some site work would be done and of course there are the engineering and contingency etc the same as the other plan only a much lesser amount asked for.

Ned Gordon also stated that with this project the bond payment would come out of users fees and not out of general taxation.

Richard Walenda still felt that IPC could do more about their process water and help with the problem.

Boake Morrison said IPC has been here for a long time and helped the town a lot. They are paying more for their sewer now and it will be going up so they are helping to pay for this new system as well as the rest of us.'

Tom Belser said we have to do something so that we can grow.

Walter Corbeil stated that if the State comes in, we will have to do what they tell us and not necessarily what we want and it could cost us a lot more.

Pat Lovejoy asked if we were still going to get the 20% from the State that we were suppose to get last year. Ned said that it was doubtful that we could get it this year but that they were trying for this as well as the other grant.

Dr.Winter wanted to know if the State really does go around and enforce their threats.

John MacEachen said that as long as we stay within compliance then they won't bother us. They would prefer to go with the total project but will have to go with us as long as this is what you vote. The EPA will start making the State enforce these orders beginning in 1989.
Article 11 passed by voice vote.

8:07 PM Article 12 To see if the Town will vote to authorize the Planning Board to review and approve or disapprove site plans for the development or change or expansion of use of tracts for non-residential uses or for multi-family dwelling units, which are defined as any structure containing more than two dwelling units, pursuant to RSA 674:43. Further, it shall be the duty of the Town Clerk to file with the Grafton County Registry of Deeds a Certificate of Notice showing that the Planning Board has been so authorized and giving the date of such authorization.

Moved by Anthony Plante and Second by Ken Grack. This is a tool that the planning board can use to help manage the growth of the town. They can review

a major project much closer with this then without this power.

Tom Belser spoke in favor of this as being very useful for the Planning Board.

Richard Walenda was also in favor as long as the Planning Board does not play favorites.

Bertha Bailey said she resented being accused of playing favorites and this was a good tool that they could use to do their job.

Article 12 passed by voice vote.

8:15 PM Article 13 To see if the Town will vote to deposit fifty persent of the revenues collected pursuant to RSA 79-A (the land use change tax) in the conservation fund in accordance with RSA 36-A:5 as authorized by RSA 79-A:25, II. Submitted by petition.

Sam stated this article had been placed in the warrant by the Conservation Commission and that he was a member of that Commission and wished to speak for this article so Calvin Huckins, a former Moderator, was going to fill in for him on this article.

Article 13 was moved by Samuel Worthen and second by Gordon Dole.

Sam stated that last year the legislature passed a bill that would allow all or a percentage of the land use change tax to go to the Conservation Fund. This tax is assessed when land is taken out of current use and put to another use. No one knows how much there might be in a given year. Last year it was $10,000 and this year it is projected at $7500. We are asking that one half of this amount be put into the conservation fund to help the Commission to protect the natural resources of the Town. It would be put into a savings account and draw interest through the year and could be used after a public hearing for such things as development rights or easements.

Walt Corbeil said when the land goes into current use it reduces their taxes and increases ours and then when they take it out and pay the penalty which helps make up for this a little bit, you want to take half of this and tie up land that again would not pay taxes. I think this hurts a lot of us in the pocketbook.

Mason Westfall said you can get some help from the State but you have to have funds to match theirs. He stated that when it comes out of land use we lose wild land and this might be a way to offset this.

Roger Pedersen stated that in 1988 there was land valued at 149,573 in land use by 71 people. This would be about 5¢ off the tax rate if this land was not in current use.

Dr. Winter spoke in favor and Bill Phinney felt it should be left in the general fund.

Richard Walenda moved the question, Second by Frank Neirce. Passes by voice vote.

The voice vote was too close to call so hand vote called for.

This was Yes, 48 and No, 54. Article 13 defeated.

8:56 PM Article 14 To see if the Town will vote to establish public mooring fields adjacent to town owned shorefront property pursuant to RSA 270:59-72 and to place such mooring fields under the direction of the Board of Selectmen.

Moved by William Phinney and Seconded by Tony Plante. Bill said the article was put into the warrant to see if the people wanted to have a public mooring at the Town Beach. The Selectmen are really not in favor of this. We would only be able to have so many mooring and half would have to be for transits. How would we determine who would get them and would the same people have them each year are just a couple of the questions that would arise from this.

Walter Corbeil felt we should not have all these boats near our swimming area.

Boake Morrison moved the question. Second by Burt Williams. Passed by voice voice.

Article 14 then defeated by voice vote.

9:01 PM Article 15 To see if the Town will vote to instruct the Town's representatives to the General Court to respond to our solid waste crisis by taking all necessary measures to insure the New Hampshire adopt legislation that will permit consumers to return for refund of deposit within New Hampshire all soda, beer, wine cooler and liquor containers and that all unclaimed deposit monies shall be collected by the state and no less that 80% shall be returned annually to local municipalities for the sole purpose of implementing, expanding and reimbursing community recycling projects. Submitted by petition.
Moved by Mason Westfall and second by Tom Caldwell. Mason stated that to recycle would help to reduce the volume of waste that would go to the land fills etc.
Boake Morrison said recycling was not the way to go any more as it costs to much to do this.
Roger Pedersen was not in favor of the bottle bill and Glenn Sharp spoke in favor.
Richard Walenda moved the question, Seconded Frank Keirce. Passed by voice vote.
Voice vote too close to call so show of hand called for. Yes- 54 No-33.
Article 15 passed.

9:20 PM Article 16 To see if the Town will vote to accept a parcel of land at the intersection of Lake Street and Willow Street, owned by Walter Corbeil, and to authorize the Selectmen to take any action relative thereto.
Moved by Ned Gordon and Seconded by William Phinney. This is a triangular piece of land used as a right of way for vehicle traffic at the beginning of Willow Street (about 230 square feet).
Glen Sharp moved the question and Stephanie Curdie Seconded. Passed by voice vote.
Article 16 then passed by voice vote.

9:25PM Article 17 To see if the Town will vote to make improvement to Bear Mountain Road, so called. Submitted by petition. Moved by Ned Gordon and Seconded by Bob Newcomb. Ned stated that this is a town road. It was accepted by the Town before the current standards were set so this is a dirt road. The residents are asking for help in getting their road oiled which would costs about $7000.00 The money would come from the current budget and would not be additional to our present budget.
Peg Bouvier said the water department dug up the road, took out the gravel, and brought back more sand like material and the road has been terrible ever since. She feels the town ruined the road and that they should fix it.
There are eleven houses on about one-half mile of road
Burt Williams feels that we should maybe put some gravel on it this year and then oil it next year.
J. P. Morrison said he felt we should follow the plan that is laid out by the Highway Supervisor. He had stated that he hoped to do some work on it this year and maybe finish it next.
Richard Walenda moved the question and seconded by Burt Williams. Passed by voice vote.
Article 17 defeated by voice vote.

9:40 PM Article 18 To see if the Town will vote to authorize the Selectmen to apply for, accept, and expend federal or state grants which may become available during the course of the year, and also to accept and expend money from any other governmental or private source to be used for the purposes for which the Town may legally appropriate monies: provided (1) that such grants and other monies do not require the expenditure of any other Town funds, (2) that a public hearing shall be held by the Selectmen prior to the receipt and expenditure of such grants and monies and, (3) that such items shall be exempt from all provisions of RSA 32 relative to limitation and expenditure of Town monies, all as provided in RSA 31:95-B(SUPP.).

Moved by J. P. Morrison and Seconded by Tony Plante. Passed by voice vote.

9:44 PM Article 19 To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of Taxes. Moved by Tony Plante and Seconded by Gordon Dole. Passed by voice vote.

9:45 PM Article 20 To transact any other business which may legally come before this meeting.

Ned stated that the people had just received your inventory forms. He wanted to get a feeling to see if the public would agree if they were to do away with them.

This was so moved by Mason Westfall and seconded by Gordon Dole. Ned stated that we could keep up on the improvements by the building permits and then the Selectmen go around and visibly check on what has been done. Motion passed by voice vote.

9:50 PM Adjoined.

Respectfully submitted,

Barbara L. Avery

Barbara L. Avery, Town Clerk

All new offices have been duly sworn in.
All necessary bonds have been executed.
